- III. Turn-Key Drilling & Completion Service**
- IV. Technological Innovation**
- V. Global Supply Chain**

# I. ABOUT HILONG

- Public company providing **high-end oilfield equipment and comprehensive oilfield technology & services.**
- Headquartered in **Shanghai.** Listed on the HKEX (Stock Code: 01623.HK)
- One of biggest Chinese Oilfield Service Companies.
- Dedicated to quality, safety, and efficiency in every project.

# I. ABOUT HILONG

01

Five Business Segments

## Oilfield Equipment

- Drill Pipe
- Drill Collar
- Pup Joint
- Other Drilling Tool

## Oilfield Services

- Drilling & Completion
- Integrated Engineering
- Reservoir Engineering
- Environment Protection

## Line Pipe Technology and Services

- Line pipe coating
- CRA lined pipe
- CWC
- Pipeline inspection

## Offshore Engineering

- Offshore structures installation,
- Offshore pipe laying & repair
- Offshore engineering projects design

## New Materials

- Marine coating
- Protective coating
- OCTG coating
- Line pipe coating

02

Five R&D Centers

## Petroleum Tubular Research

- Drill Pipe
- Drill Collar
- Pup Joint
- Other Drilling Tool

## Drilling and Completion Engineering Technology Research

- Drilling & Completion
- Integrated Engineering
- Reservoir Engineering
- Environment Protection

## Pipeline Technology Research

- Line pipe coating
- CRA lined pipe
- CWC
- Pipeline inspection

## Offshore Engineering Research

- Offshore structures installation,
- Offshore pipe laying & repair
- Offshore engineering projects design

## Petrochemical Research

- Marine coating
- Protective coating
- OCTG coating
- Line pipe coating

# I. ABOUT HILONG

## Introduction

Hilong Oil Service & Engineering Co., Ltd., is committed to delivering **digitalized, intelligent, and customized solutions, including drilling and completion technical services, integrated engineering services, reservoir engineering and management services, and oilfield environmental protection technical services.** As IADC membership and the first Chinese enterprise with provision of 3000HP HTHP ultra-deep well onshore drilling rigs operating overseas, Hilong will insist on R&D and innovation on oilfield technologies, continuously perfecting its integrated service capacity to provide global clients with greener, more efficient, lower carbon and more intelligent one-stop solutions.

# I. ABOUT HILONG

## Hilong in Nigeria

Hilong Oil Service and Engineering Nigeria Ltd. (Nigeria) was incorporated in 2010, with its headquarters located in PHC, the capital of Nigeria's River State.

As IADC membership and the first Chinese enterprise with provision of 3000HP HTHP ultra-deep well onshore drilling rig operating in Nigeria, we have been serving high-end International Oil Companies in Nigeria, such as SPDC (Shell Nigeria) and NAOC (ENI), and other local oil companies in Nigeria, such as Oando, Heritage, Shoreline, DEEP, Matrix, Midwestern and Seplat Energy.

# I. ABOUT HILONG

## Nigeria

### Rig and Operation Management In Nigeria

- HL-68 (2600HP VFD Drilling Rig): currently provide turnkey services for Oando. HL-66 (2000HP VFD Drilling Rig) under preparation.
- HL-7 (2000HP SCR Drilling Rig): first provided drilling service (key personnel and rig management) in Nigeria at 2021 for SEPLAT. Current provide drilling service for Heritage in Nigeria.
- HL-16 (2000HP SCR Drilling Rig): currently provide drilling service for HPTP.
- HL-19 (2000HP SCR Drilling Rig): first provided drilling service in Nigeria at 2012 for SPDC. Currently provide drilling service for SPDC.
- HL-27 (3000HP VFD HTHP Drilling Rig): first provided drilling service in Nigeria at 2014 for SPDC. Currently provide drilling service for SPDC.
- HL-29 (2000HP SCR Drilling Rig): first provided drilling service in Nigeria at 2019 for SPDC. Currently provide drilling service for Midwestern in Nigeria.
- OYEBISI A001 (2000HP SCR Drilling Rig): currently provide rig operation & management services for Matrix.
- DH 107 (2000HP VFD Drilling Rig): currently provide rig operation & management services for Heritage and now under mobilization.
- Until Sep. 2025, a total of 80 wells have been drilled and completed in Nigeria, with a total drilling footage of 332,430 meters.

# CONTENTS

- I. About HILONG
- II. Global Presence**
- III. Turn-Key Drilling & Completion Service
- IV. Technological Innovation
- V. Global Supply Chain

## II. GLOBAL PRESENCE Global Distribution

- **98+%** of Contracts are from International Market;
- Highly diversified around the world and oversea market oriented;
- Work to high international standards;
- Plentiful experience with majors IOCs, like SHELL in Nigeria and Albania, BP in Iraq, ENI in UAE and Nigeria, PDO in Oman, etc.

## II. GLOBAL PRESENCE Major Clients

Hilong Oil Services & Engineering provide high-quality oilfield services for SHELL, BP, ENI, PDO, BOC, KEC, SNOC, OANDO, HERITAGE, SHORELINE, DEEP, CARMO ENERGY, OGDCL, PPL, Petra Energy, Petroecuador (PEC), ANDES, CNOOC, PetroChina, Sinopec, United Energy, ZhenHua Oil and also cooperate with well-known international service companies, like SLB, Halliburton, Baker Hughes and Weatherford.

# II. GLOBAL PRESENCE Global Rig Service Capability

## Rig Type

- HTHP Rig
- Fast Move Rig
- Automatic Rig
- Skidding Rig

## Rig Capacity / Depth Rating

- 650HP/7000m, 2-7/8" DP (Workover)
- 750HP/8000m, 2-7/8" DP (Workover)
- 1500HP/5000m, 4-1/2" DP (Drilling)
- 2000HP/7000m, 4-1/2" DP (Drilling)
- 3000HP/9000m, 4-1/2" DP (Drilling)

## Features and Strengths

- Key personnel and rig management services.
- Automation and Redzone Monitoring upgrade for Drilling & Workover Rig.
- Conceptual design of rig according to customization to meet the requirements of different operating environments.
- HILONG has its own rig yard for commissioning test and crew training.

3000HP\***3** 2600HP\***1** 2000HP\***14** 1500HP\***2** 1000HP\***1** 750HP\***5** 650HP\***3** 550HP\***2** : Total **31** Rigs

750HP Workover Rig

3000HP HTHP Drilling Rig

# II. GLOBAL PRESENCE Global Qualification & Awards

The Safe Operation of Hilong Oil Services Has Been Recognized by Worldwide International Clients.

## II. GLOBAL PRESENCE Hilong Oman Rig and Operation

### Oman

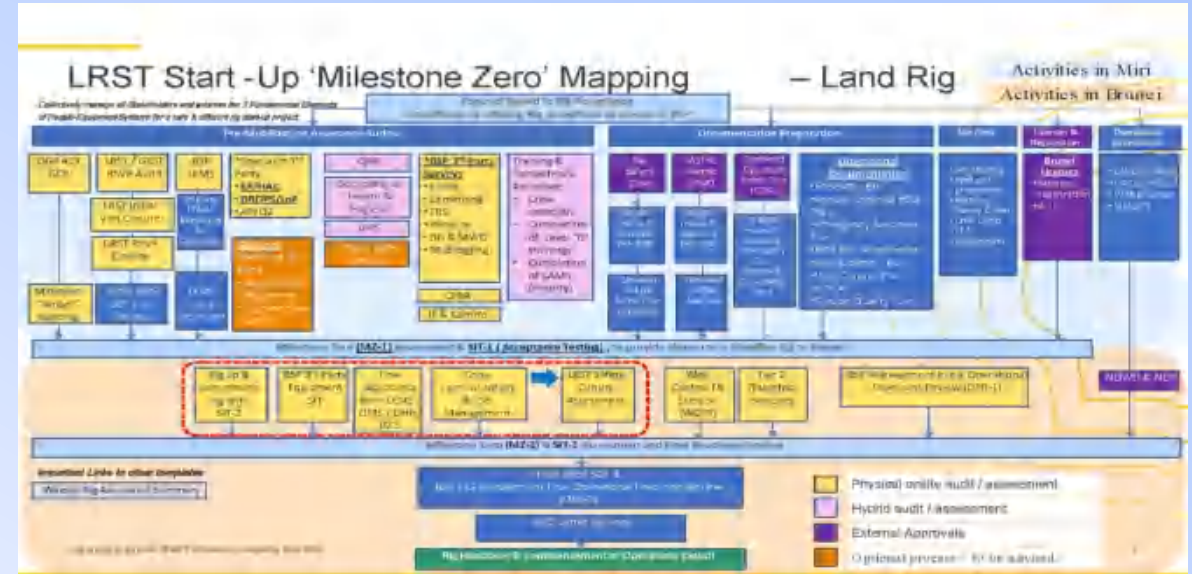

- ✓ Client: Petroleum Development Oman (PDO)
- ✓ Start: Q4 of Y2018
- ✓ SOW: Provision of Two 2000HP Automatic Drilling Rigs (VFD) and Associated Services (Under Execution)
- ✓ Estimated Start: Q3 of Y2026
- ✓ SOW: A 1000HP Super Single Rig and a 3000HP Super Heavy Land Rig (under manufacturing), all equipped with advanced Zone Management Systems and Smart Energy Storage Technology, newly awarded a 6-year contract.

# II. GLOBAL PRESENCE Hilong Brunei Rig and Operation

Brunei

- ✓ Client: Brunei Shell Petroleum (BSP)
- ✓ Start: Jan. 2025
- ✓ Contract Duration: 18 months
- ✓ SOW: Provision of 2000HP Drilling Rig and Associated Services (Under Execution)

# III. Turn-Key Drilling & Completion Service – Why is HILONG?

	<p><b>Expertise in Well drilling and ancillary service</b></p>
	<p><b>A leading oilfield service and equipment provider</b></p>
	<p><b>Years of experience and a global presence across major oil-producing regions</b></p>
	<p><b>Trusted partner for comprehensive oilfield solutions</b></p>
	<p><b>Cost efficiency Oriented</b></p>

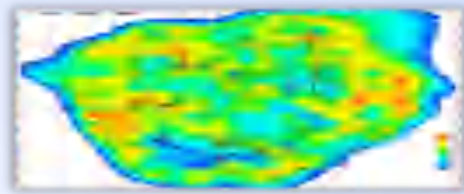

Hilong has established cooperative relations with capable research institutes and third-party companies in China.

We also have drilling and completion fluid lab, cementing lab, warehouse and workshop to support the turnkey project operation.

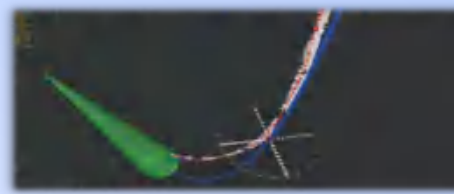

# III. Turn-Key Drilling & Completion Service

Field Development Plan

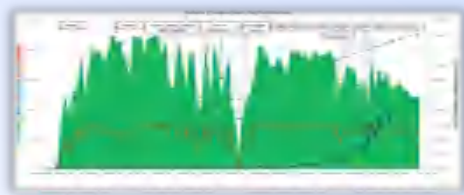

Project Management

Drilling

Completion

Stimulation

Production Management

## Advantages

Geological & Engineering

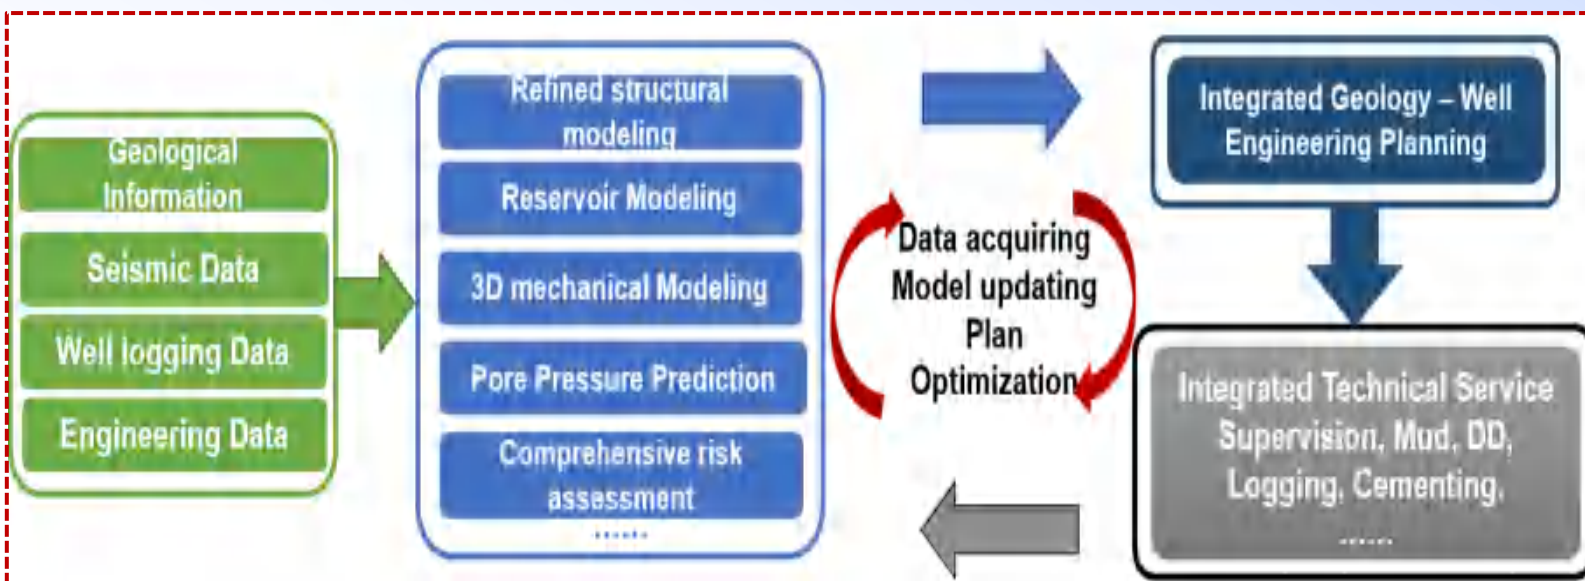

Oil Based Drilling Fluid

Formation Bearing Capacity

Bit and Drilling Optimization

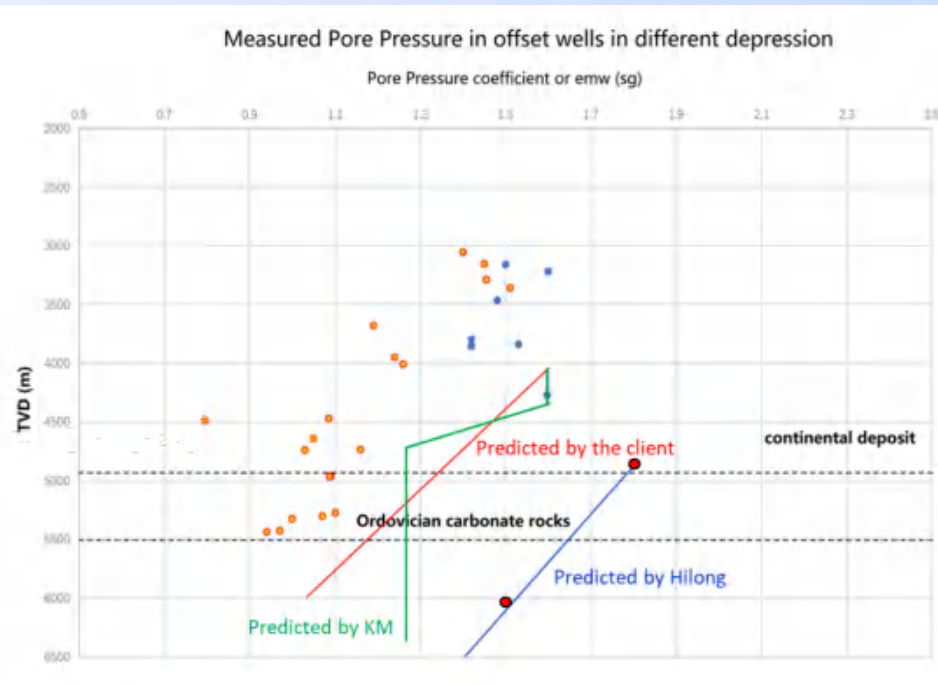

Cementing Measures

IPM Management

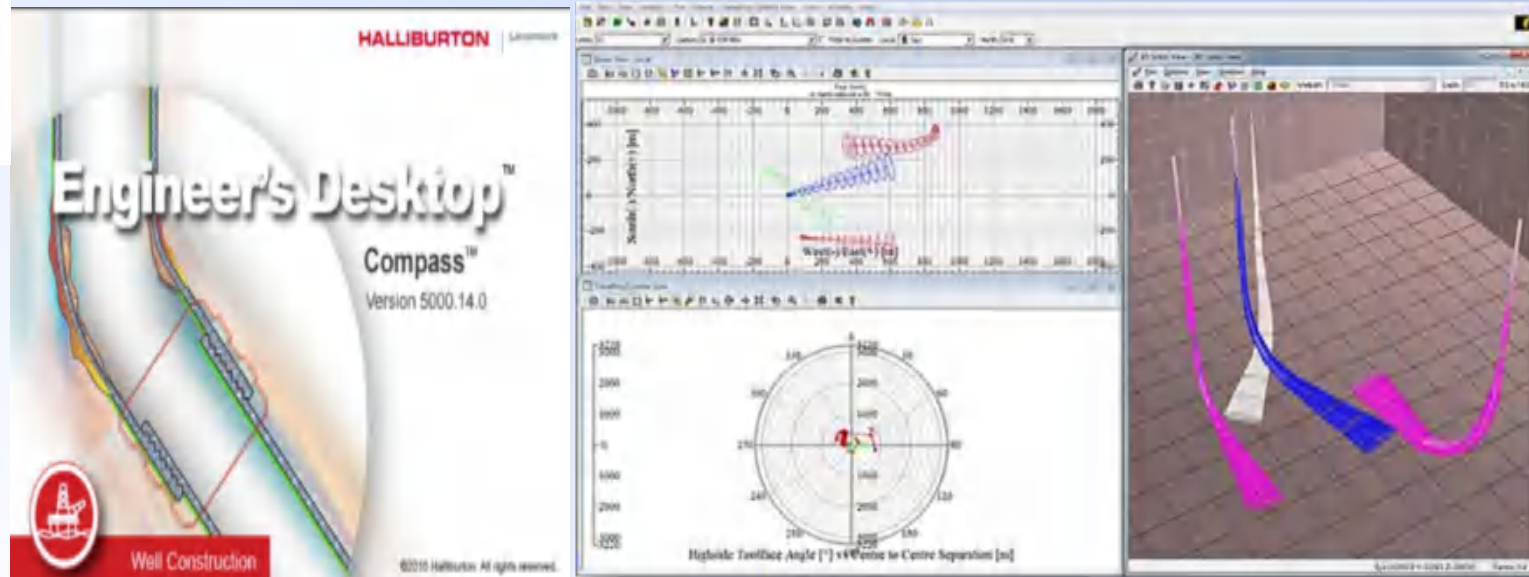

# III. Turn-Key Drilling & Completion Service – Engineering Software

## Compass and Well Plan Engineering Modeling

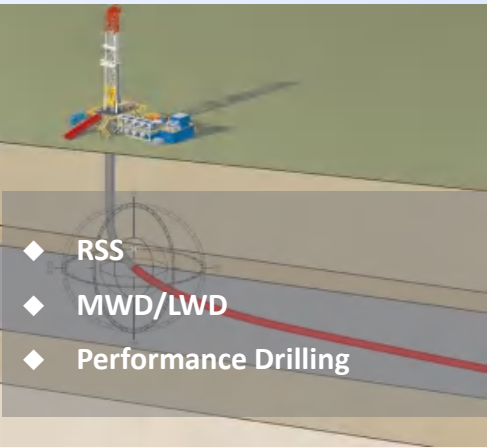

- ❑ BHA Modelling
- ❑ Hydraulic Design, Torque & Drag Analysis
- ❑ Cluster Platform Optimization, 2D&3D Trajectory Design
- ❑ Anti-collision Scan, Industry Plot Output
- ❑ Drilling Data Management

PWD, downhole pressure while drilling sensor reveal ECD and ESD, acquire borehole pressure to facilitate well control and placement.

# III. Turn-Key Drilling & Completion Service – Technology and Service

## Directional Drilling

- ◆ RSS
- ◆ MWD/LWD
- ◆ Performance Drilling

## Drilling & Completion Fluids

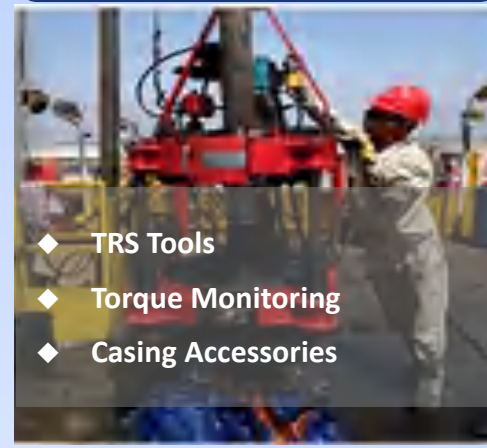

- ◆ WBM & OBM
- ◆ Completion Fluids
- ◆ Chemicals & Additives

## Cementing

- ◆ Slurry Systems
- ◆ Engineering Design
- ◆ Additives and Tools
- ◆ R & D

## Tubular Running

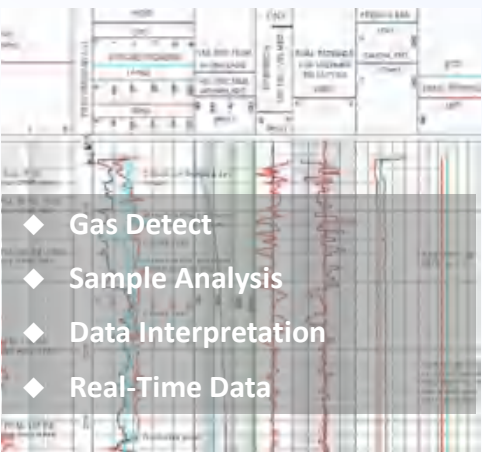

- ◆ TRS Tools
- ◆ Torque Monitoring
- ◆ Casing Accessories

## Well Intervention

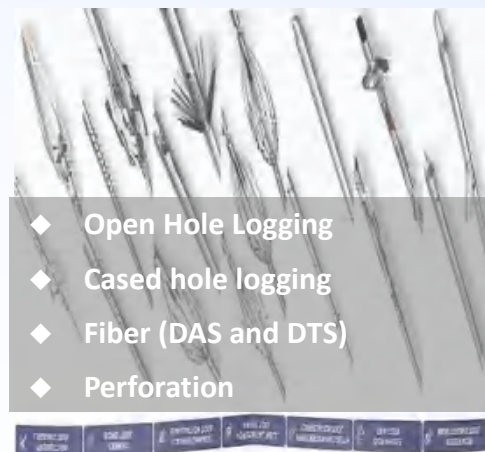

- ◆ Workover
- ◆ Rigless
- ◆ Coil Tubing
- ◆ Stimulation

## Mud Logging

- ◆ Gas Detect
- ◆ Sample Analysis
- ◆ Data Interpretation
- ◆ Real-Time Data

## Wireline logging

- ◆ Open Hole Logging
- ◆ Cased hole logging
- ◆ Fiber (DAS and DTS)
- ◆ Perforation

## Completion

- ◆ Open Hole Completion
- ◆ Cased Hole Completion
- ◆ Multiple Zone Completion

## MPD

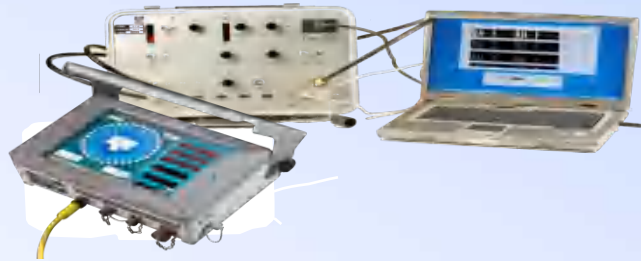

- ◆ Integral MPD Manifold
- ◆ Electrical Control
- ◆ Software

## EOR

- ◆ Smart Nano EOR
- ◆ Surface Well Testing
- ◆ DST

# III. Turn-Key Drilling & Completion Service – Directional Drilling Services

**Surface Data Handling Systems**  
Processing, Presentation, Interpretation and Well Planning software

**Data Transmission**  
Positive, Negative, EM, Rotary, Acoustic  
Higher Data rates

**While-Drilling Measurements**  
Pressure, Temperature, Shock

**Directional Sensors**  
Vertical, Deviated, Horizontal, 3D Shock & Vibration, Gyro Technology

**Steering Tools**  
Rotary Steerable System  
Adjustable Downhole Motor, Vertical Drilling Tool

**Formation Evaluation**  
Gamma, Multiple Depth Resistivity, Azimuthal Gamma, Density, Neutron

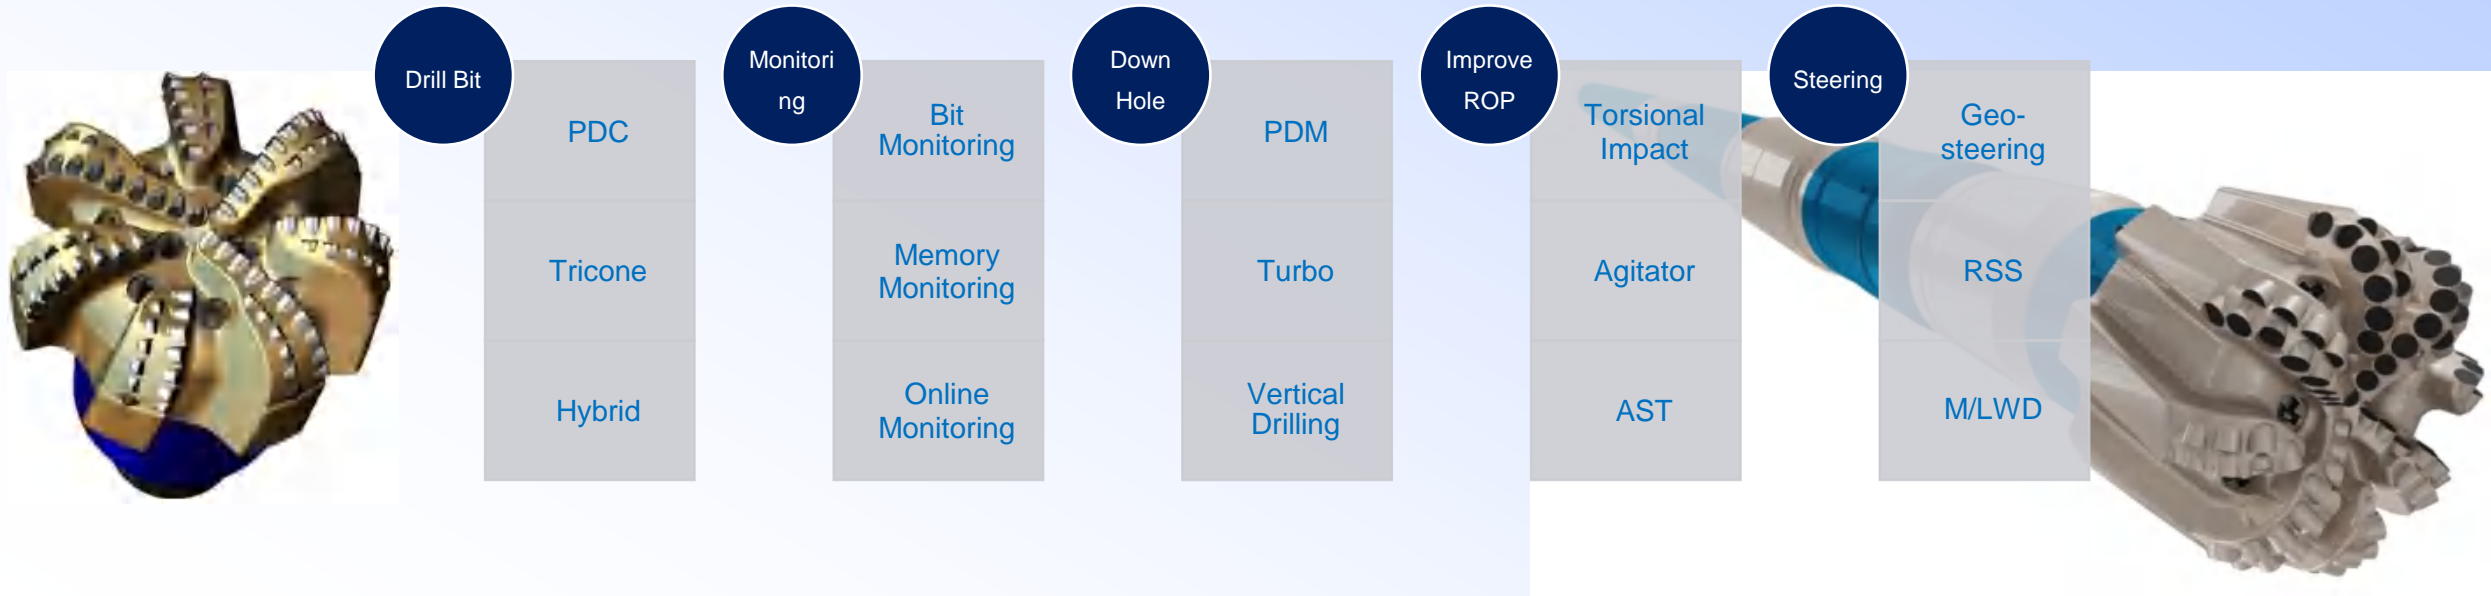

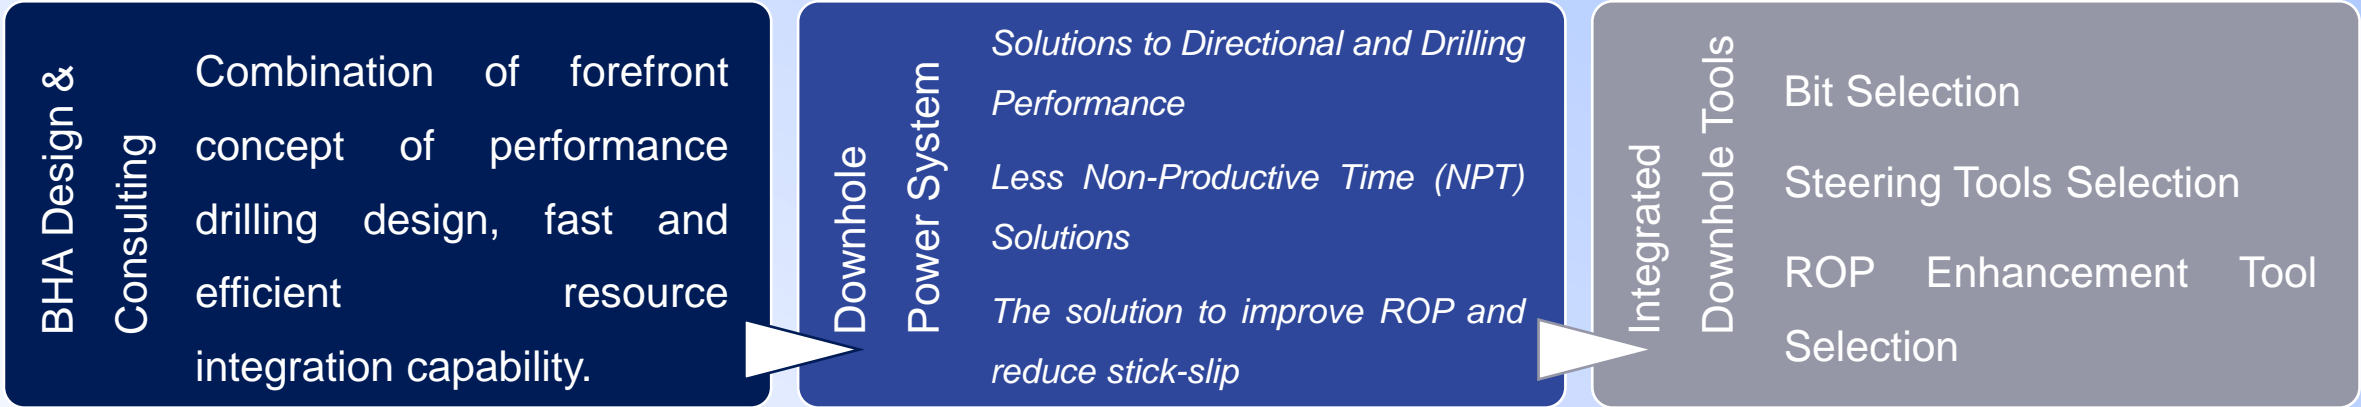

**Near Bit Sensors**  
Directional, Gamma

**Downhole Communications**  
Short Hop, Wireless Downhole Interface

**Drilling Bit**

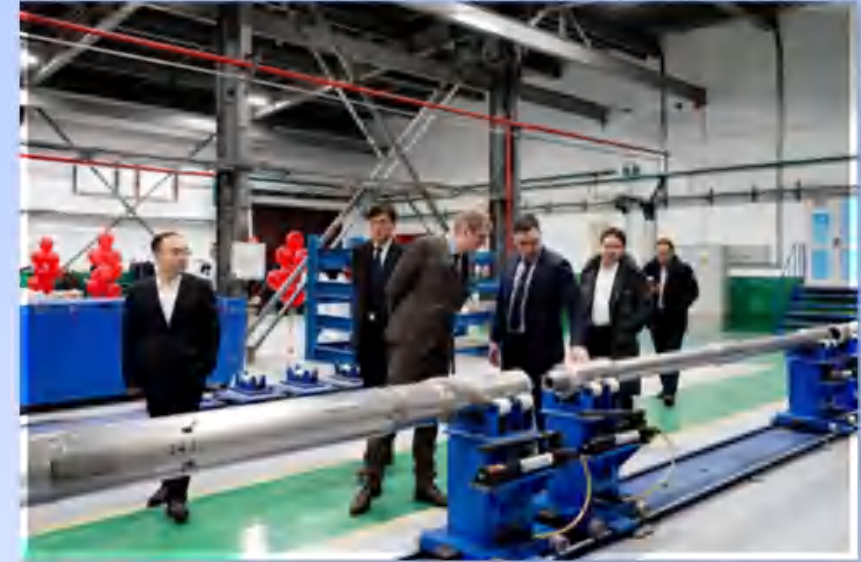

## HILONG Directional Drilling Tools

### III. Turn-Key Drilling & Completion Service – Directional Drilling Services

### III. Turn-Key Drilling & Completion Service – Directional Drilling Services - RSS

- 7 sets of 6-3/4" RSS and 2 sets of 4-3/4" RSS
- 4 service teams
- Level 0-4 RSS maintenance
- Can combine with LWD of other companies
- The Horizontal section grows exponentially
- High Reservoir Drilling Rate and build rate (0-10°/30m)
- Low Drilling Tool Buckling Risk
- Good Borehole Quality
- Push the Bit Model with Rugged system design
- Down Like design allows command data transmission from surface to borehole
- High stability-200 hours of downhole running hours can be achieved. Ave MTBF > 150 Hrs
- **From 2023 to March of 2025, successful application of RSS for 33 wells abroad**
- Good performance in high salinity (the density is over 190000)

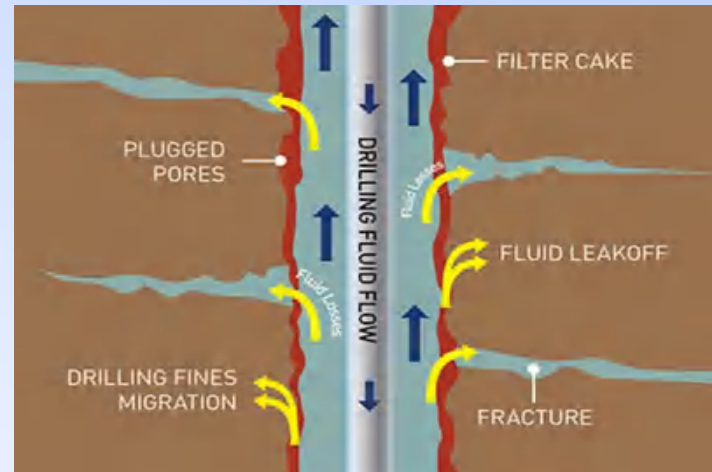

# III. Turn-Key Drilling & Completion Service – Drilling Fluids Services

Provide clients with super quality services of drilling & completion fluids, and EFS (Solids control, Environment protection & waste management). Deliver the all kinds of water base, oil base, synthetic base drilling fluids systems and completion fluids (ZnBr<sub>2</sub>, CaBr<sub>2</sub>, KCL, CaCl<sub>2</sub>, etc.).

➤ **Specialized Products:**

Solution name	Application
High-performance Water-based Drilling Fluid System HL-GXN	Highly Water-sensitive and Prone to Collapse Wells
Saturated Salt Water Drilling Fluid System HL-BHY	Complex Large Section of Salt-gypsum Layer Wells
High-density Poly-sulfur Drilling Fluid System HL-HW	Conventional Deep Wells, Ultra-deep Wells
Gas Reservoir Protection Systems HL-YB	Horizontal Wells Protect Oil and Gas Reservoirs
High Temperature and High Pressure Drilling Fluid System HL-HPHT	Abnormally High Temperature and High Pressure Wells
Oil Base Drilling Fluid System HL-OBM	Highly Water-sensitive and Prone to Collapse Wells

# III. Turn-Key Drilling & Completion Service – R&D Center & Storage

One Chemical Research Center in Shanghai, one mud system design and testing Center in Beijing which has a high degree of cooperation with China University of Petroleum.

**Shanghai  
Hilong  
Group  
Chemicals  
R&D Center**

**Warehouse in  
Karachi, Pakistan**

**Warehouse in  
Southern Iraq**

**Beijing  
R&D Center  
(China  
University  
of  
Petroleum)**

Strong warehouse management system and field laboratory have whole set of API standards instrument. Movable laboratory on wellsite.

### III. Turn-Key Drilling & Completion Service – Cementing Services

- ◆ Advanced equipment, techniques and testing facilities, capable of providing clients with all kinds of well cementing operations for directional wells, horizontal wells, HPHT wells, and low-pressure low fracture gradient wells, etc.

#### Service Capability:

- Twin Pumping and Cementing Services Units along with Equipment and Products
- Casing (primary) Cementing
- Secondary (plug) Cementing
- Remedial Cementing Jobs (squeeze cementing)
- Balanced Cementing Jobs (open hole & cased holes)
- Kick-off Plugs
- Abandonment Plugs
- Shoe Bond / FIT/ Leak off / Injectivity Test
- Plug Jobs Flow/Loss (Barite, LCM, CaCO<sub>3</sub> chips, etc)
- Casing and BOP pressure Test

Pump Truck and Cement Mixing Truck

Hilong Cementing Unit

Standard Moveable Lab

Cement Silo and Bulk Carrier

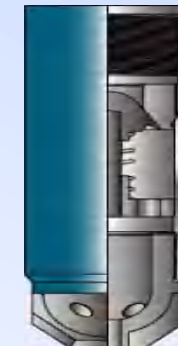

### III. Turn-Key Drilling & Completion Service – Cementing Tools & Additives

- Provide high-quality oil well cement additives and cement slurry system solutions for well cementing projects.
- Covering an area of 15,000m<sup>2</sup>, with an annual production capacity of 2,000t.
- Oil well cement additives

API - Q1 Certificate

API - 5CT Certificate

### III. Turn-Key Drilling & Completion Service – Cementing Service & Field Equipment

*PHG16 Batch Mixing Skid*

*SSCC100-30-I Trailer Mounted Twin-engine & Twin-pump Cementing Skid*

*GJC100-30 Twin-engine & Twin-pump Cementing Truck*

*SSCC70-22-I Twin-engine & Twin-pump Cementing Skid*

*Cement Silo*

# III. Turn-Key Drilling & Completion Service – Cementing Service

Recap

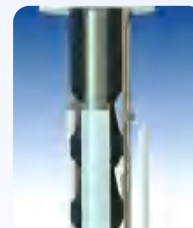

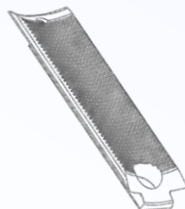

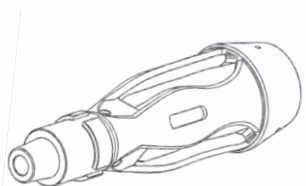

Stand Off

Displacement Efficiency

### III. Turn-Key Drilling & Completion Service – Tubular Running Services - CRT

- Independent hydraulic source and control panel to perform automated hydraulic operations
- Recording System of Make Up Torque and report generation
- Real-time Video Monitoring System of Operation
- Structural Innovation
  - ❑ Double passage load design with slip as the main lifting mechanism and lifting ring as the auxiliary
  - ❑ Dovetail slot & arc rail jam-free structure
  - ❑ On-site replaceable slip structure
  - ❑ Slip self-locked structure prevents from casing loosening
  - ❑ Connected bracket with derrick floor and/or TDS – easy assembly & disassembly

# III. Turn-Key Drilling & Completion Service – Mud Logging

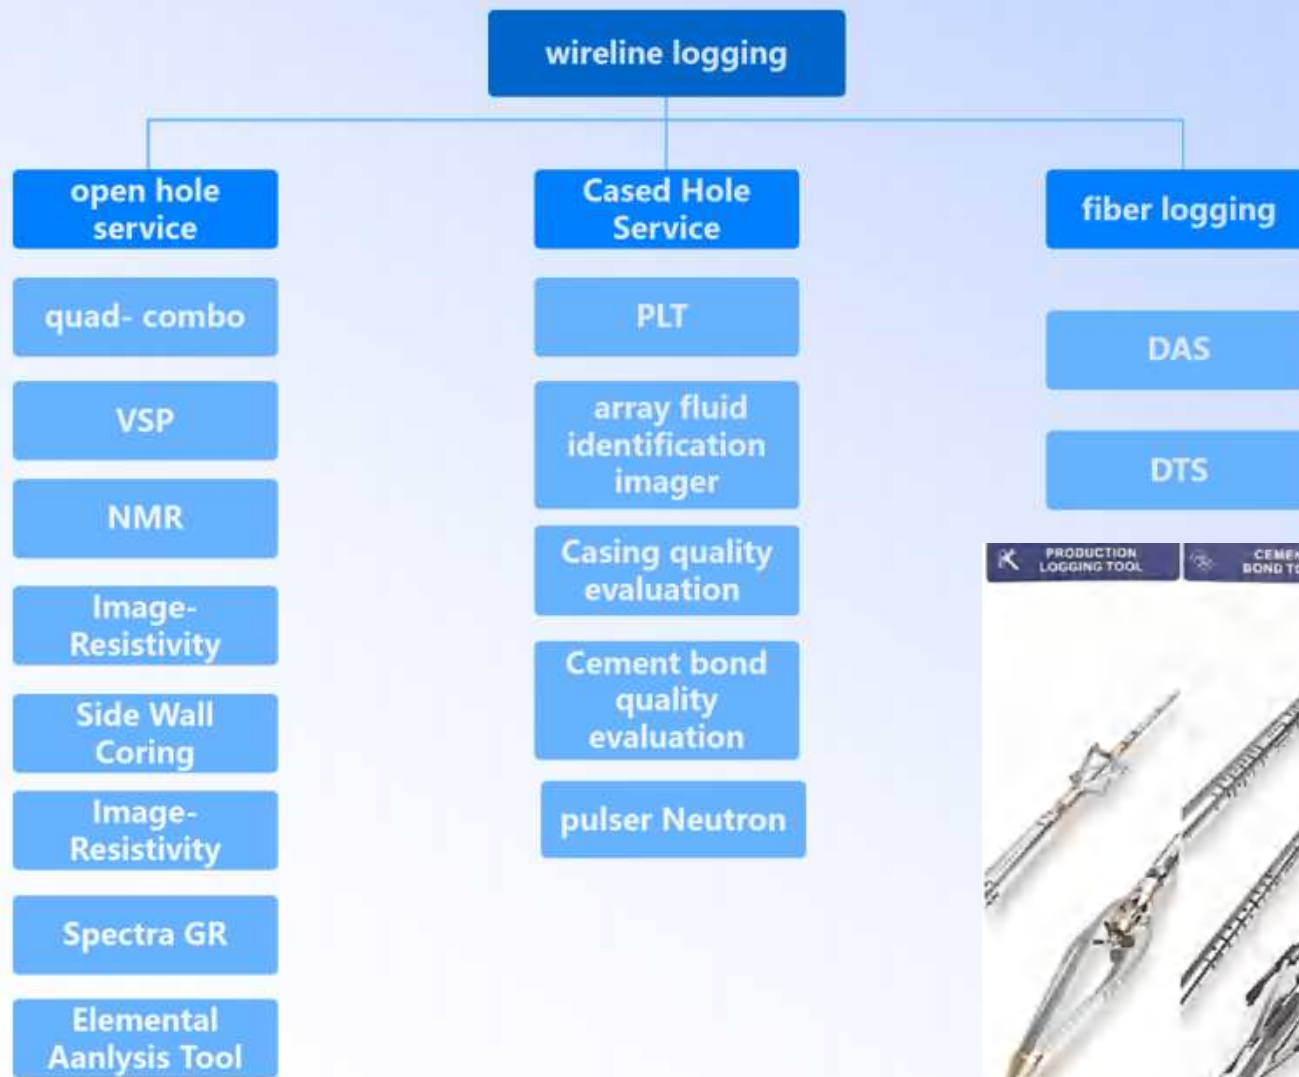

Our mud logging unit composes of three parts with cutting processing area, geologist area and data acquisition area with enough space and table for mud logger, sample catcher, data engineer and well site geologist, the unit will be in good conditions, fully rain proof, ruggedized, high safe specification, suitable for installation, and all flitting equipment will be completed with latest test and valid inspection certificate.

Parameters		Specification
Container	Size	L8.0mm (skid) × W2.438m × H2.598m
	Top and bottom plate	6mm flat plate
	Wall plate	4mm corrugated plate
	Wall decoration	B0 anti-flaming materials
	Weight	14t
Working temperature		-30-70°C
Certificate		Pressurized, DNV, A0
Input power		600/480/380/220 ± 30% V AC, 3 phases 4 lines, 50-60Hz

# III. Turn-Key Drilling & Completion Service – Wireline Logging

- With the cooperation of China logging company and Univerty, we can provide full range of open hole/cased hole/fiber logging data acquisition and interperation
- We can provide the logging tools of series 175°C and 230°C
- We can provide the Tractors and other downhole intelligent tools

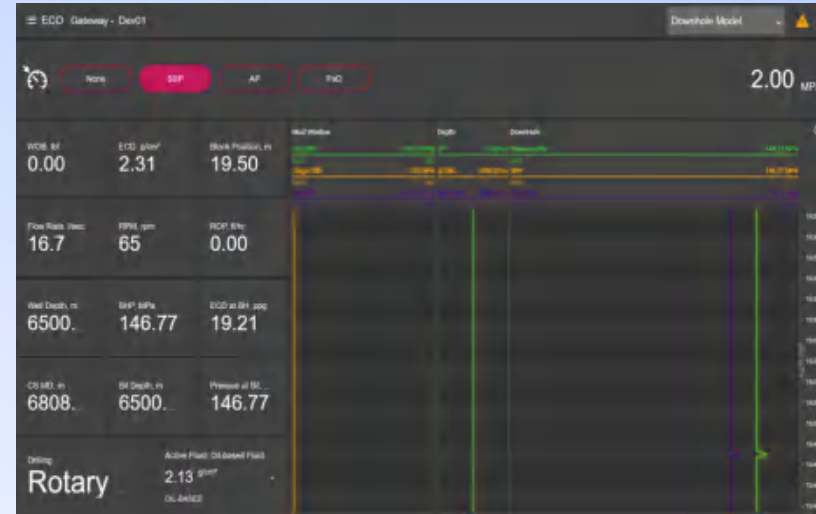

# III. Turn-Key Drilling & Completion Service – Managed Pressure Drilling

## ➤ Hilong MPD System

Closed-loop MPD product line from R&D, system development to field services enables Hilong world-class MPD technical service capability:

- ❖ **ECO software:** Web & cloud based MPD software incorporates multiple surface and downhole pressure control functions.
- ❖ **High accuracy flow modelling:** Numerous factors considered MPD flow modelling enable accurate output.
- ❖ **Electric chokes:** Dual servo motor controlled electric chokes for precise pressure control.
- ❖ **Diverse choke manifold design:** Separately and all-in-one designed MPD choke manifold available in the fleet.
- ❖ **Abundant field service experience:** 20+ well completed with Hilong MPD system with the deepest well at 8963m (29,406ft) and highest mud weight at 2.14s.g (17.9ppg).

## III. Turn-Key Drilling & Completion Service – Coiled Tubing

- **Client:** MELLITAH OIL & GAS B.V (LIBYAN BRANCH) - JV of ENI and Libyan National Oil Company
- **Location:** MELLITAH's Oilfields
- **Contract Duration:** Call-out Basis (Start: Aug. 2024)
- **Scope of Services:**
  1. Coiled tubing matrix stimulation jobs
  2. Circulation of fluids in a well
  3. Lifting with fluids or nitrogen
  4. Coiled tubing washout jobs using either fluid or foam
  5. Coiled tubing jetting with either fluid or nitrogen
  6. Positioning or washing of cushions or bottom hole plugs
  7. Setting and/or recovering downhole equipment using coiled tubing
  8. Surface displacement or bull heading of tubing or drill string with nitrogen (without coiled tubing)
  9. Miscellaneous pressure testing using dry nitrogen.

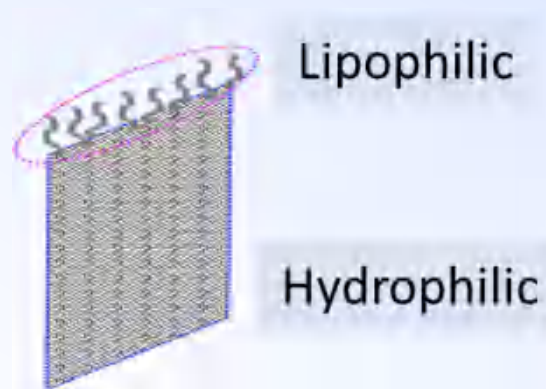

### III. Turn-Key Drilling & Completion Service – Smart-Nano EOR Technology

Hilong Flexnano EOR Technology apply a low-carbon and efficient intelligent, low dimensional nanomaterial-2D Smart Nanocard. It is committed to promoting the low-carbon and efficient development of improving oil recovery under the current low-carbon situation.

Application in Oman

Intelligent nanomaterials are small- sized, and have large specific surface area, high surface energy of nanoparticles, making them the most advanced EOR oil displacement technology in the 21st century.

Nano Enhancement Technology

### III. Turn-Key Drilling & Completion Service – Turnkey and IWS Project Experiences

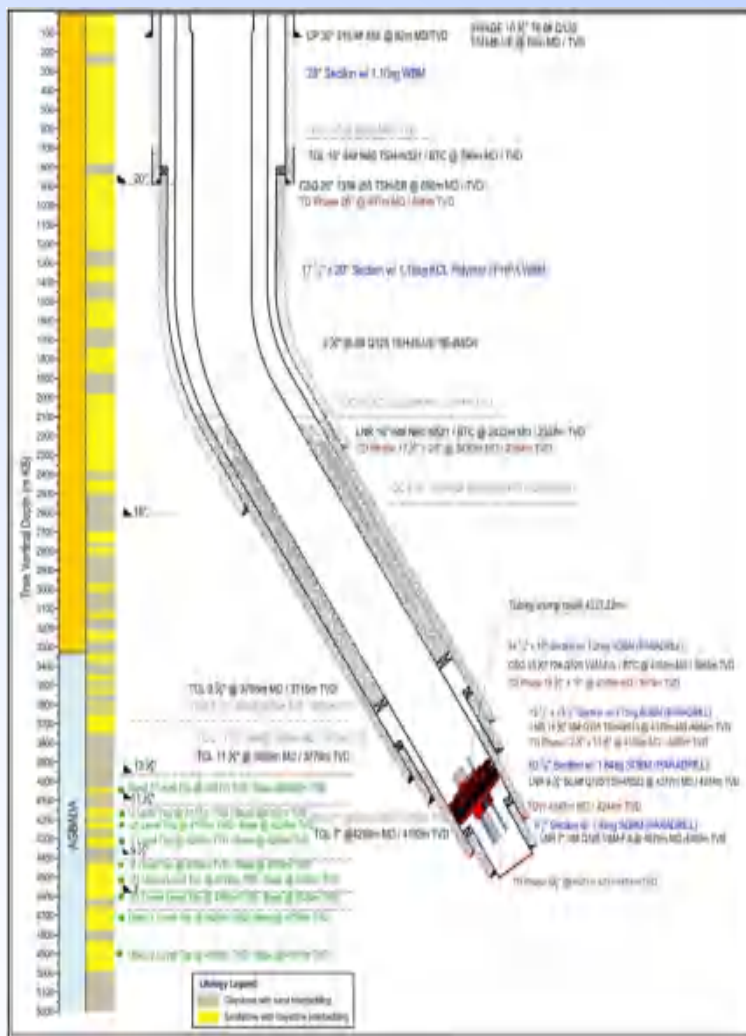

- In 2012, providing integrated drilling and field development services in Kazakhstan. Delivered more than 200 vertical, directional and horizontal wells with depth of 600 - 2600mMD in KAM, KOP, KTC, CX etc. oilfields.
- From 2017 until now, providing integrated Well Services in Pakistan. With excellent downhole tools selection and drilling fluids performance optimization, achieved the Fastest Drilling Record in MKK and Fastest Well Drilling Record in Badin Concession Block of UEPL. The contract, which started with a two-year term, is now renewed annually.
- In Jan 2022, Turnkey drilling and completion project in Siba Gas Field, Iraq. The Client is KEC Iraq. Directional Well Type. Average MD with more than 4,200 m.  $1000\text{m} \leq \text{Displacement Distance} \leq 2,000 \text{ m}$ .
- In Aug 2025, delivering the Turnkey Services for Onshore Deep Well Workover & Re-completion successfully in Nigeria.
- In 2026, providing comprehensive turnkey services (drilling, completions, and ancillary) for land well operations in Nigeria, with 1 deep drilling rig and 1 medium depth drilling rig.

### III. Turn-Key Drilling & Completion Service – Proven Record of Delivery in Nigeria

#### ➤ Turnkey Workover & Completion SoW:

- Project management
- Drilling rig
- Completion brine & kill fluid
- Wireline logging
- Slickline service
- Fishing service
- Wellbore clean-up
- Brine filtration
- Cementing and pumping
- Tubing running service
- Completion service
- Waste management
- Fuel
- Transportation service

Location	OML61	
Rig	HL68 (Land Rig)	
Well Name	Obiafu44 Dir ST02	
Commenced Date	31-Aug-2025	
Well Profile	Deviated well	
Completed Date	28-Oct-2025	
	<b>Plan</b>	<b>Actual</b>
Total Days	75	<b>57.29</b>

#### Achievements:

- Shorten **17.71** days.
- Cost efficient and safety handover to Client.
- Overcome multiply technical challenges.

# V. TECHNOLOGICAL INNOVATION

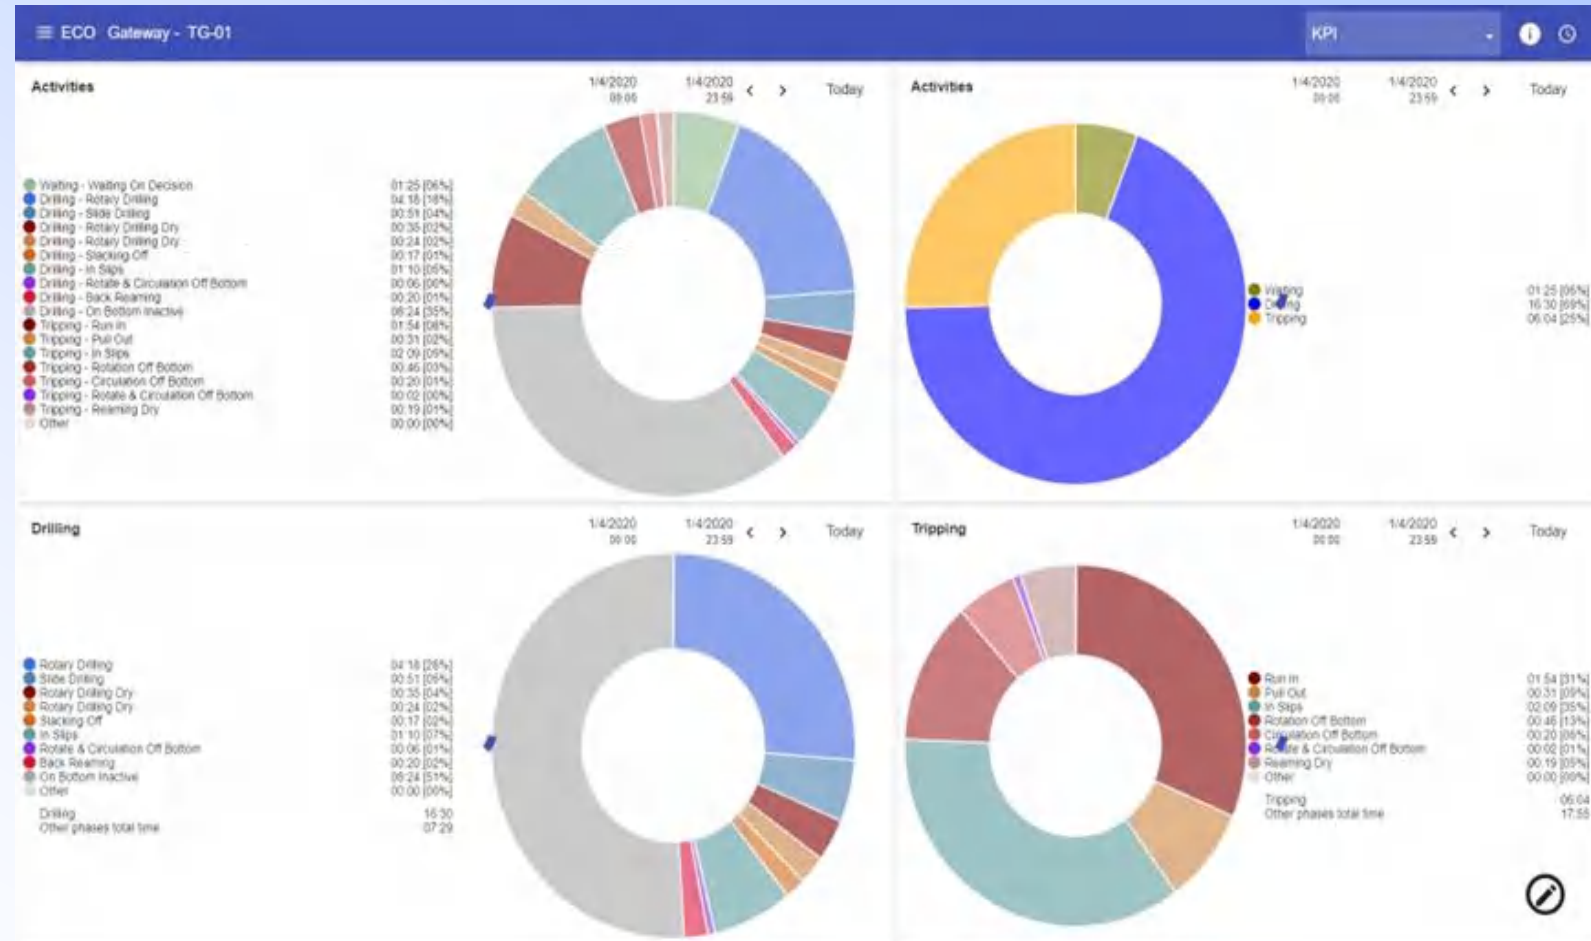

Established Technology Company to Introduce and Develop Cutting-edge Technologies

◆ MPD equipment and control software:

Independently developed pressure control manifold and control software.

◆ ECO data service platform:

for big data management of oilfield development using drilling data.

Turn-Key  
Service

Supply Chain  
Management

To highlight our supply chain strengths in the oil and gas industry, we possess the following key advantages:

- ✓ **Expert Turn-Key Service Team:** Equipped with in-depth industry knowledge and technical product expertise, ensuring technical review and operational support.
- ✓ **Strong Oil Industry Integration Capability:** Leveraging extensive knowledge of Chinese manufacturers to source high-quality, cost-effective products.
- ✓ **Experienced International Trade Team:** Facilitating efficient global procurement and logistics for a stable and seamless supply chain.
- ✓ **Proven Track Record:** Successfully supplied comprehensive materials to multiple clients, with proven quality and reliable service.

## Product Series

OCTG

Casing, Tubing

Drilling Tools

- Drill Pipe
- HWDP
- Drill Collar

Line Pipe

Include coating  
(FBE, 3PE, 3PP)

### Customized, Non-API Models:

- Designed for harsh conditions, such as deep well and corrosive environment.
- **Project Case:** supply customized casing and tubing for SNOC's offshore drilling activities

### Production Standards:

- OCTG and Line Pipe: API 5CT, API 5L
- Drilling Tools: API 5DP, API 7-1, NS-1, DS-1

### OCTG Special Recommendation

#### Hilong's Advantages in Providing OCTG Products:

- 100% interchangeable/compatible with international brands such as VAM and TENARIS.
- Cost savings.
- Short delivery lead times to meet client operational schedules.
- A professional team offering one-stop service, including product selection, production quality control, shipping, and local customs clearance & transportation.
- Local technical experts in Nigeria provide OCTG running support and 24/7 after-sales services, ensuring safe and efficient drilling operations.

- Wellhead Equipment
- Packer
- Shale Shaker Screen
- PCP Pump
- Cementing Materials
- Chemical Products (Viscosity Reducer; Potassium Chloride; Mud)
- etc...

Junk Mill

Wellhead and X-Tree

PCP Pump

# After-Sales Technical Support and Guarantee

## After-Sales Technical Support & Guarantee: Our Commitment

- **1** Local Operations: For fast, on-site support and spare parts.
- **2** Comprehensive Warranty: Full coverage on all supplied equipment and parts.
- **3** Expert Technical Team: Local & Chinese engineers for uninterrupted operations.
- **4** Your Reliable Partner: We ensure your long-term success and satisfaction.

THE END Thank you very much !
